

The background of the image is a dense, close-up shot of a pile of dark, charred wood chips or charcoal. The pieces are irregular in shape, with some showing the grain of the wood and others being more fragmented. The lighting is somewhat dim, creating a range of dark greys and blacks, which emphasizes the texture and organic nature of the material.

FRESHERS

# EXPLORING THE PROBLEM

Students face a lot of problems regarding academics, hostel mess, how the marking/ranking system works etc., Our team decided to take up this topic as it is regarding the problems our friends face, We wanted to put up a voice regarding these issues so that they can come to light and be solved. These issues shall be explained in brief in the following slides.

Problem faced-

- No proper detailing about OSA.
- Not conducted many activities to collaborate with other branch mates.
- No information about the actual functions of a specific club.

Problem faced-

- Lack of right career guidance
- No information about the course in detail as it is the first time the course has been started by the university.
- No clarity on internships.

## KEY OBSERVATIONS

It was commonly seen that all of the freshers lagged behind of basic information and tend to adjust with the circumstances on their own.

# FOCUS ON SOME MORE ISSUES

- During the initial months, students find it immensely stressful to manage time.
- As a student, you might want to allocate time for attending classes, doing assignments and contributing for the clubs. Most importantly, you also have to make time for yourself.

## Responsibilities

- Each day brings along with it new responsibilities, such as managing financial resources.
- Students are supposed to live on their own maintaining a balance between their academic life and social life.

## Time Management

# FOCUS ON SOME ISSUES

- Tremendous freedom and independence will be given all of a sudden, especially when it comes to making decisions and your own choices.

- This freedom can be exhilarating as well as overwhelming.

- Managing your life based on a schedule is a challenge in itself and can be quite satisfying, if done successfully.

## Getting On with Roommates

- If lodging and boarding facilities are needed, dealing with roommates will be quite a challenge. This is because most of them have different needs and wants.
- Effective communication and mutual compromise with roommates can ease the transition.

## Increase in Personal Freedom

# DEEP FOCUS ON A FEW MAJOR PROBLEMS FACED BY ROOMMMATES

## CLEANLINESS:

Maintaining a clean and tidy room can be a challenge when you have to share it with someone else.

## NOISE:

Noise levels can become a problem if any one roommate is loud or has different sleeping habits.

## PERSONAL SPACE:

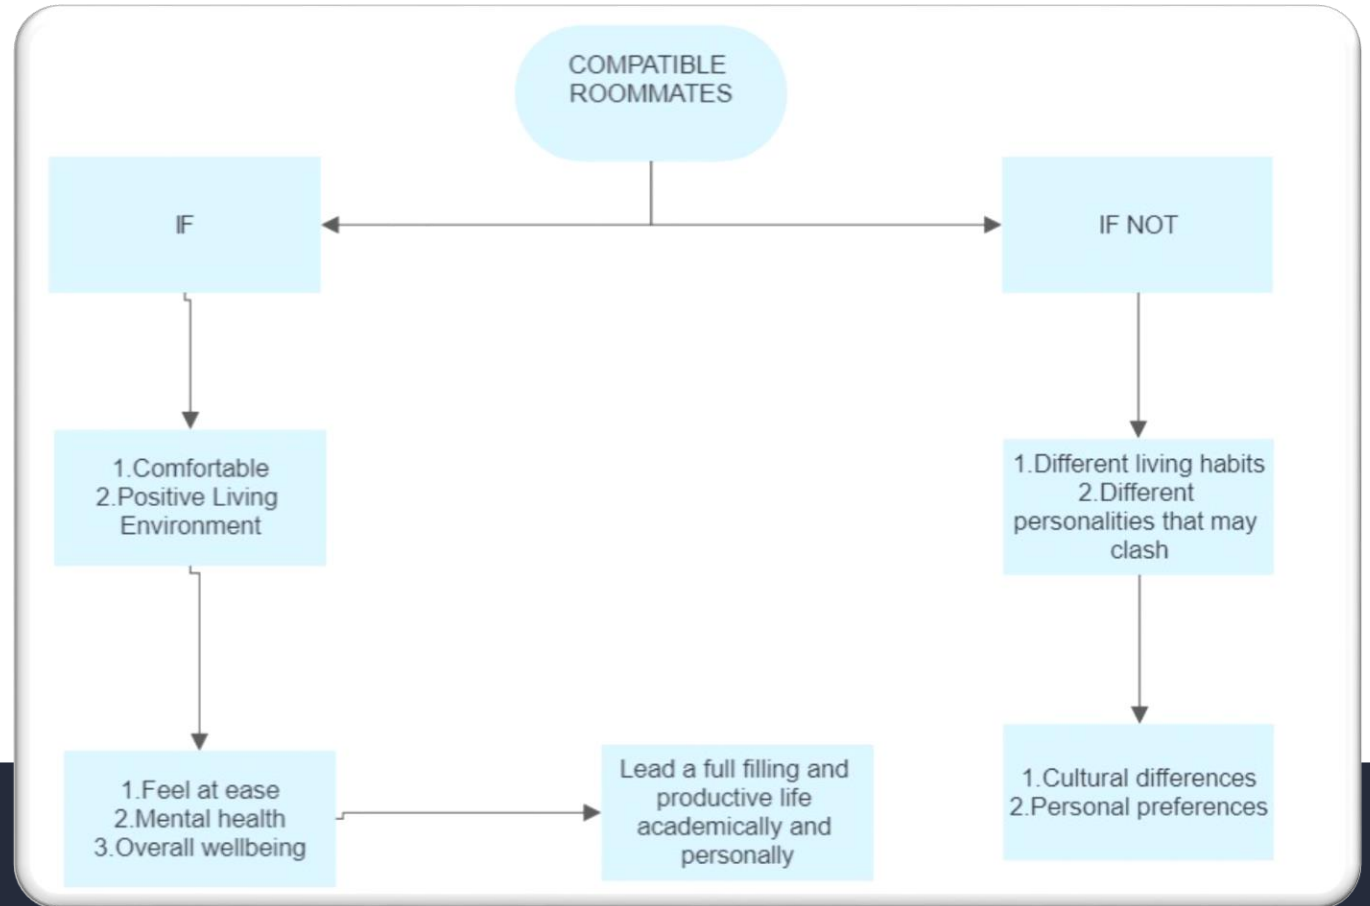

Sharing a room can also mean sharing limited personal space, leading to feelings of cramped conditions and discomfort.

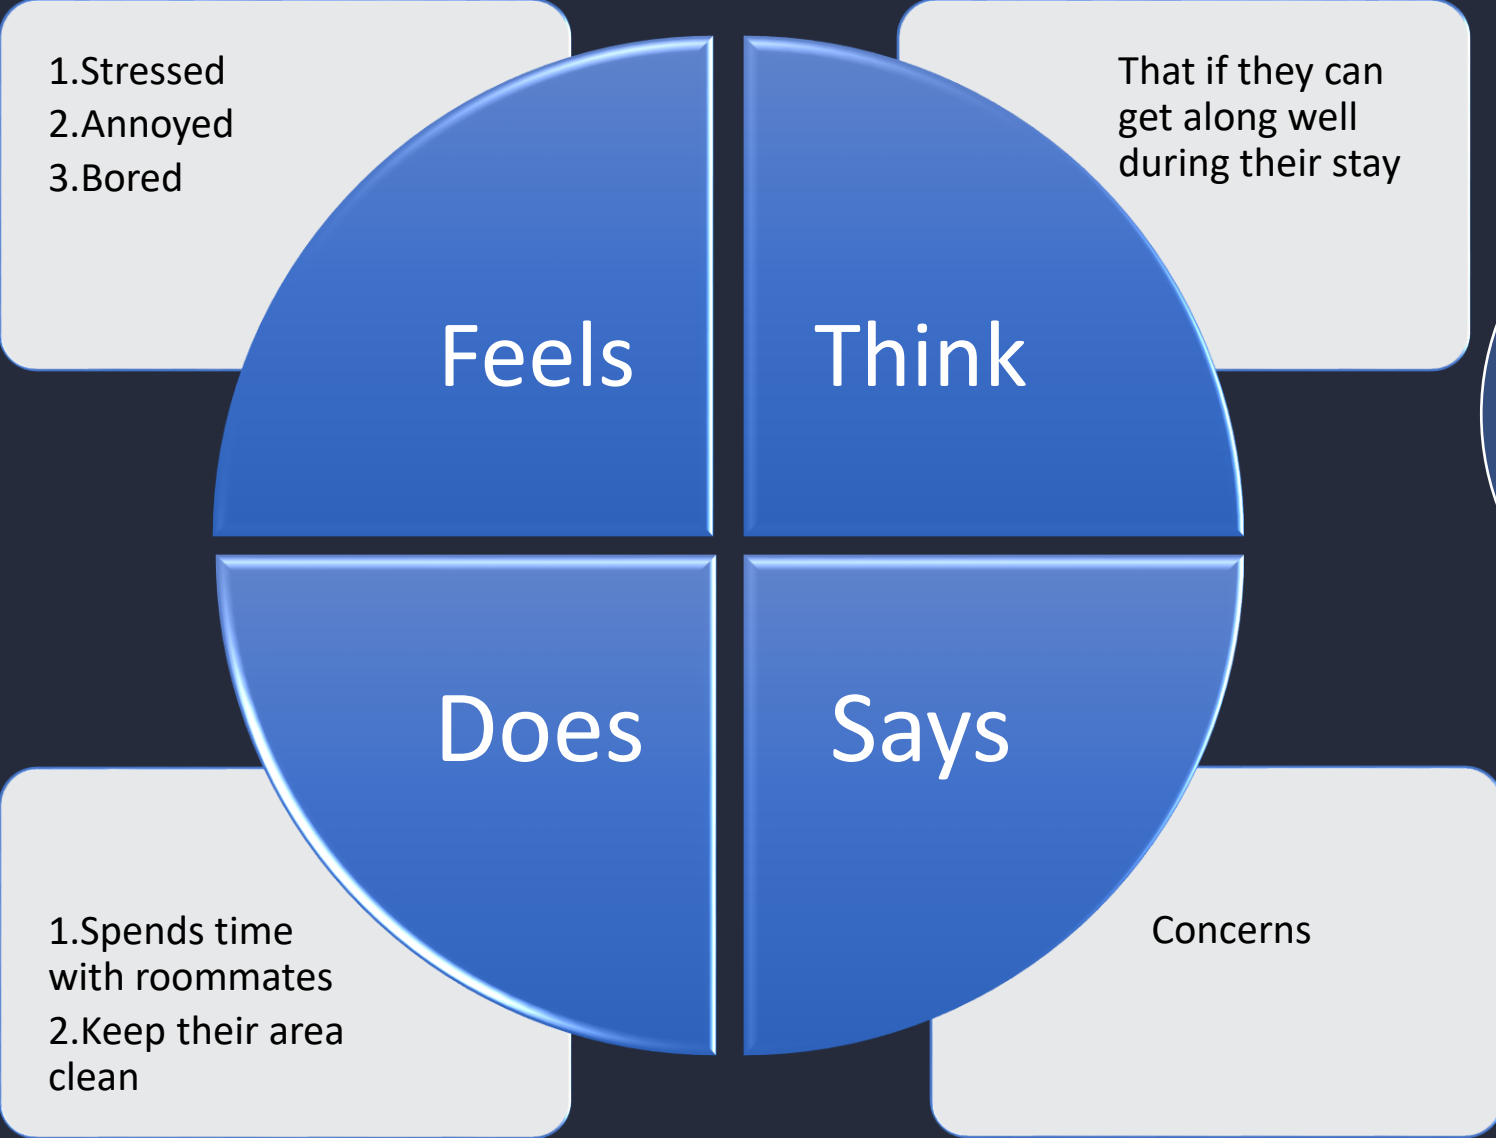

# HOW MIGHT WE STATEMENT

How might we create a platform to choose compatible roommates at the CMR hostels in order to maintain peace among the roommates.

## WHY-TREE

EMPATHY MAP

STAKE HOLDER  
MAP

Common roommate problems	Minimize	Destroy	Preserve
Clutter and messiness	Develop and adhere to a cleaning schedule, designate spaces for personal belongings	Eliminate unnecessary items, dispose of trash and recyclables properly	Respect each other's belongings and shared living spaces, encourage open communication about cleanliness expectations
Noise disturbances	Set quiet hours and stick to them, use headphones or keep the volume low	Get rid of noisy appliances or electronics	Encourage open communication about when and where noise is appropriate
Conflicts over shared spaces or belongings	Set clear boundaries and expectations for shared spaces and belongings, communicate about any issues as they arise	None	Respect each other's boundaries and possessions, encourage open communication about shared spaces and belongings
Different schedules or lifestyles	Be respectful of each other's schedules and routines, communicate about any conflicts	None	Respect each other's schedules and lifestyles, encourage open communication about scheduling conflicts
